

BRAXTON COUNTY SCHOOLS

Security Request for Proposals

3 Big Ideas

- Modernization
- Standardization
- Utilization

Present Situation

- 4 Camera Systems
- 57 Total Cameras
- No Outside Cameras
- No Sports Area Camera
- Focus on crowd areas, transition areas, problematic areas (We will define those during the walk through.)
- Consolidation – less cameras more effective and efficient coverage
- Think outside of the system you will see today. We are looking for an expert opinion and reasons for that opinion.

Things to Consider

- Storage Units
- User Friendly (training and frequent transitions)
- Definition vs Cost (Need vs Want)
- Location vs cost of Camera (Box, PTZ, Wifi...)
- Consolidation and Overlap for Multiple Perspective
- Color vs. Noncolor
- Area of Concerns vs Area that may just need a Motion Sensor

Demonstration

- Offer clarification on the types of devices available and why they have chosen for the areas you are putting them in...
- Help us look at the proposals and understand pros vs cons of the packages
 - Presentation time will be assigned
 - 45-Minutes to 60-minutes
- Do we want all vendors to see other vendor presentations?
